

Common service basis (functional unit)

89.375 GWh_{th} delivered service

space heating, cooling & domestic hot water

50 years (2025–2075) = 1.787 GWh_{th} yr⁻¹

identical denominator for GEN and REF

System composition

37 modeled buildings

23 single-family residential

9 FHA multifamily · 5 commercial / municipal

3 borefields · 115 boreholes

Modeling basis

HEATNETS + URBANopt loads

project specification, engineering assumptions,
and modeled loads on one weather basis

GEN operation rerun through modified HEATNETS;

REF reconstructed on the same delivered load
